HOW TO MEASURE:

Measure your hips and compare to the size chart above. It is usually recommended to order up in size if measurements fall at the higher end of size scale. To get the most accurate measurements, have someone else measure you. Be sure to hold the measuring tape straight and snug, not tight, to your body.

PANTS

1. HIPS:

Stand with your heels together and measure around the fullest part of your hip.

INSEAM:

- 2.** Using a pair of pants that fit you well, measure from the crotch seam to the hem.

Note: Garments will typically measure larger to ensure ease of movement. Sizes may differ slightly due to styling.
